

# Sample Nursery 3 schedule.

Every aspect of our Nursery-Kindergarten program – from academics to the physical environment – has been designed to ensure that students have the right balance of intellectual stimulation, play, and hands-on exploration. The Nursery 3 class is designed to ease the transition from home to school. Through the context of play, students learn that being part of a community requires you to respectfully acknowledge and listen to others’ thoughts and ideas. Children learn to express their own opinions, build independence, and actively engage in the learning environment. **Project-based learning** uses student interests to generate ideas for long-term study, guided by teachers.

Monday	Tuesday	Wednesday	Thursday	Friday
<b>Early Drop-Off option</b> , supervised play time with an N-K teacher, begins at 7:30am
